Burglars Don't Seek the Light!

Darkness is their stock in trade. They work by stealth-unheard and unseen-their movements cloaked in secrecy. It's honest folks that see the light. They are the only ones who can risk it.

It's the same way in business. The merchant who is not sure of his goods does not dare to advertise. Advertising would hasten the end of his business career-put him to a test he could

The merchant who advertises, deliberately invites your inspection. He tells you about his product and then lets it stand on its own merits. You can depend on him. He knows his product

That's one reason why it pays you to read the advertisements in THE BONANZA. It is through advertising that you are able to keep in touch with the good things that progressive business houses are spending their money to introduce and keep before you.

Advertisements are interesting, instructive and profitable. They throw a powerful light on the very things that concern you most. READ THEM!
